

RSA Polysand 800 is an acrylic based, stone enhanced product designed for use over RSA rendered substrates including fibre cement sheeting.

RSA Polysand 800 Range (LB, MB & UDB)

RSA Polysand 800 is highly flexible, high adhesion acrylic texture coating that can be tinted to achieve a finished product that does not require painting.

RSA Polysand 800 is available in Light Base (LB), Mid Base (MB) & Ultra Deep Base (UDB).

Features and Benefits

- Excellent adhesion to all properly prepared substrates
- Easy to apply non 'tacky' formulation.
- Superior flexibility, overcoming shrinkage and minor cracking associated with cement renders
- Long lasting, high integrity finish suitable for both interior and exterior use
- Formula incorporates a graded stone size that provides an excellent guide for even application
- An extremely durable semi-smooth finish that is easy to maintain
- Suitable for tinting as a finished colour or can be painted over with RSA Rapid Shield Matt

Suitable Substrates

When applied in accordance with the most recent application instructions, RSA Polysand 800 is suitable for use over correctly prepared substrates including:

- Acrylic and cement based renders
- Slab edge, off-form and tilt panel concrete
- Painted surfaces
- Gyprock plasterboard
- Fibre cement sheeting
