

RSA Polysand Fine is an acrylic based, stone enhanced product designed for use over RSA rendered substrates including fibre cement sheeting.

RSA Polysand Fine (LB)

RSA Polysand Fine is an acrylic based, stone enhanced texture designed for use over RSA rendered substrates.

RSA Polysand Fine can be tinted to achieve a finished product that does not require painting.

RSA Polysand Fine is available in Light Base (LB) only.

Features and Benefits

- Excellent adhesion
- Easy to apply – non 'tacky' formulation
- Plastic float finishing properties resulting in a sponged appearance
- Excellent flexibility, overcoming shrinkage and minor cracking associated with cement renders
- Long lasting high integrity finish suitable for both interior and exterior use
- Includes a stone size which acts as an excellent guide for even application
- Fine sand grain finish that offers both easy maintenance and high durability
- Suitable for tinting as a finished colour or can be painted over with RSA Rapid Shield Matt

Suitable Substrates

When applied in accordance with the most recent application instructions, RSA Polysand Fine is suitable for use over correctly prepared substrates including:

- Acrylic and cement based renders
- Slab edge, off-form and tilt panel concrete
- Painted surfaces
- Gyprock plasterboard
- Fibre cement sheeting
